

Do you have both Medicare and Medi-Cal?

If so, you need to make an important choice about your health and home care services.

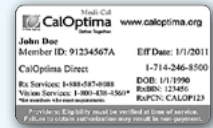

OneCare Connect

OneCare Connect is a new health care option that brings your Medicare and Medi-Cal services into one plan with additional **transportation, vision, dental, and care coordination** benefits.

More information will arrive in a **blue envelope** from CalOptima.

Don't throw the blue envelope away!

Make the Best Choice for Your Health Care Needs:

Join
OneCare
Connect

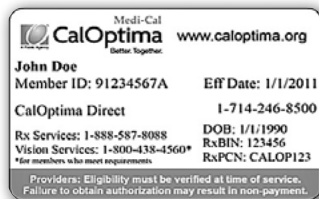

OR

Keep your
Medicare
the way it is

To get the additional benefits, you don't have to do a thing. You will be automatically enrolled into OneCare Connect. You can also voluntarily join OneCare Connect at any time.

To keep your current plan, you must opt out of OneCare Connect. If you don't want to make changes to your current health care coverage, you will have to take action by calling CalOptima.

Learn more about your options and how to enroll on the back of this page.

Each OneCare Connect Plan Covers:

- ✓ All **Medicare** (Parts A, B, and D) and **Medi-Cal services** under one plan
- ✓ Your **Long-Term Services and Supports (LTSS)**, also coordinated by the plan

LTSS includes:

- Community-Based Adult Services (CBAS)
- In-Home Supportive Services (IHSS)
- Multipurpose Senior Services Program (MSSP)
- Nursing home care

Benefits of Joining OneCare Connect

- ▶ You'll **only have one card** to present at medical appointments and **one phone number** to call with any questions
- ▶ Your LTSS (including IHSS) **stay exactly the same**
- ▶ The plan offers **extra transportation, vision, and dental benefits**
- ▶ You'll have access to a **personal care coordinator** and a **care team**

How Can a Care Coordinator Help You?

A personal care coordinator may be a case manager, social worker, or nurse who helps you manage your health care services and suggests other support that may be helpful.

Among other services, your care coordinator can:

- ▶ **get referrals** from your primary care doctor to see specialists
- ▶ **set up continuity of care** so you can see your important out-of-network providers for a limited time
- ▶ **help arrange for transportation** to medically-related appointments
- ▶ **connect you to LTSS** if you qualify
- ▶ **assist you with finding services and medical equipment** that can help you live more independently
